TWO MODELS FOR THE PERFECT FIT

The **TORCH** is a weatherproof, low-maintenance cabinet to support your ceramic grill. It features dry-sealed storage to protect all your grilling and outdoor kitchen equipment. We offer sizes to fit various ceramic grill manufacturers. With its durable casters, the Torch makes it easy to move your ceramic grill.

The **SPARK** is a lightweight, open storage cart, constructed of an aluminum powder coated frame. It provides ample support and the same weatherproof, rust-resistant properties as the Torch but at a lower price point.
